March 19, 1971

To Whom It May Concern:

Mr. Jerome E. Kroll has worked for the Milwaukee Water Works in the position of Accountant Trainee since July 27, 1970. This position, in the Work-Study Program of Marquette University, is designed to be beneficial to the student as well as to the employer.

Mr. Kroll, during the brief period he has been with us, has done superior work. In spite of a short work week, approximately 15 hours, Mr. Kroll has completed a rather lengthy assignment and made significant progress in several additional assignments.

Our strongest recommendation is our hope to acquire his services immediately after his graduation from the University.

July 24, 1970

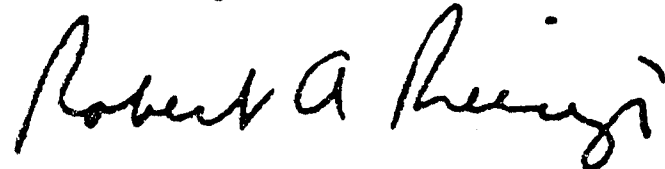

Department of Regulation and Licensing
Accounting Examining Board
110 North Henry Street
Madison, Wisconsin 53703

To: Gentlemen of the Board

For the past 1½ years Mr. Jerome Kroll has been employed for us at Climatrol Industries Inc. The first 6 months he held the position as a Cost Accountant (Mfg.), and during the past year he has reported directly to me as Corporate Systems and Procedure Analyst.

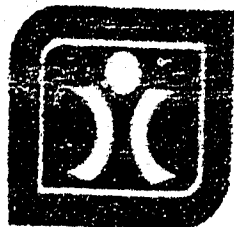

In my opinion the position which he held was that of a supervisory nature and the work performed was equivalent to that of a senior Accountant. I recommend that this 1 year of work be applied to the 1½ years qualification requirement for a license as Certified Public Accountant. Attached is a copy of his position description.

Sincerely yours;

ROBERT RIENZI
Manager of Data Processing
C.P.A. (New Jersey 1961)

4003 West Capitol Drive
Milwaukee, Wisconsin 53216

2-18-72

To Whom it May Concern:

At the start of our company, three years ago, Mr. Jerome Kroll was hired on a part-time basis to handle our bookkeeping. Since he was only half way through his accounting studies, it was assumed that we would have to hire an accounting firm in addition. Mr. Kroll quickly demonstrated that this was unnecessary and, as the company has grown, has not only handled our entire accounting needs but has established and been responsible for all accounting procedures within the company.

Still working on a part-time basis, he has trained a bookkeeper, set up systems of cost accounting and inventory control and prepared general procedure manuals for handling all financial paper work.

We now have a parent corporation, and their accounting firm finds the work he submits to them to be completely satisfactory.

We have found him to be conscientious and reliable, always getting the job done. In general we consider him an asset to our business and hope that our relationship will continue indefinitely.

Stephen P. Sullivan

RE: JEROME KROLL

GENTLEMEN:

Mr. Kroll, in the term of his employment with Lincoln Tool and Manufacturing Company, Inc., has demonstrated an excellent competence in problem solving. Mr. Kroll has been designated the complete responsibility of several projects of updating our systems and procedures. Not only did he set up functional systems, he also proved their soundness of concept by working them himself. He is responsible for streamlining our inventory handling and reporting system to the point of near elimination of error. He has set up our entire cost system in such a way as to simplify our cost of sales reporting, to perfect our production scheduling system, to give finger-tip information to our Customer Order Department, and to aid our Material Control Department in make-buy decisions as well as best source. We find that his work has removed all doubts of the decision making process of producing our products. We have found that Mr. Kroll's ability to understand the needs of all levels of an operation is part of the reason for his success. We will continue to call upon his ability as time and problems arrive.

MEMO: BRUCE, VIC, JERRY, CARL & ANYONE ELSE THAT HE MIGHT
WANTS TO READ IT

ABOUT: Hartland

Sometime ago Jerry Kroll came into my office and obviously he was very concerned.

He wasn't exactly ~~ring~~ ringing his hands but he certainly was ringing
my doorbell. He told me that there had been an election in Hartland and that a
very learned man, in fact a professor, Kenneth Race had been elected President
of Hartland.

Jerry
~~has~~ has as you know sold a lot of valuable work to the Village of Hartland
and has constructed what we think is a very good accounting system, however, Jerry
was concerned about this professor and probably his cost cutting ideas.

We have just noticed in the newspaper a little report that I'm sure makes Jerry
very happy. It reads as follows:

"In an interview this week, Race, who teaches economics at Waukesha County
Technical Institute, Potosi said that originally he was concerned about
the Villages fiscal responsibility or lack of the same".

"However, Race said last week I met with our financial advisor and I am
very impressed with the Villages accounting procedures".

"The village has done an excellent job of accounting, ~~where~~ where the money goes he
said". I haven't had a chance yet to determine where we are at, fat or thin, but
we are also on a bear boned type of budget at this time. Race said he will take
a second look at Hartland's proposed capital improvements and perhaps revise priorities.

Now you wouldn't know it but Jerry being concerned as he was without prior knowledge
to me or my approval met with Mr. Race at dinner. He outlined our procedures and
as a result we apparently have Mr. Race sold on our procedures to date.

I think this is a wonderful example of what you can do if you are "on the ball". My
hat is off to Jerry and I'll bet yours will be too.

NES

NES/cms

HARTLAND Clerk Karen Compton is shown above giving Kenneth Race, new Hartland president, the oath of office.

Race Looks Ahead

Hartland's new village president, Kenneth Race, believes that Hartland is in good shape. He also feels that Hartland has "just about reached the saturation point on apartment buildings."

In an interview this week, Race, who teaches economics at Waukesha County Technical Institute - Pewaukee, said that originally he was concerned about the village's fiscal responsibility — or lack of same.

However, Race said, "last week I met with our financial adviser and I am very impressed with the village's accounting procedures."

The village has done an "excellent job" of accounting where the money goes, he said. "I haven't had a chance yet to

determine where we are fat or thin, but we are also on a bare bones type of budget at this time.

Race said he will take a second look at Hartland's proposed capital improvements "and perhaps revise priorities."

When Hartland initiated its capital improvements plan, "the village anticipated a growth rate that didn't materialize because of economic conditions," Race said.

Economic conditions plus hiked interest rates, inflation, recession "all curtailed village development to the extent we couldn't complete or start some projects," Race said. "It's a monetary delay, frankly."

"It seems to me we have an obligation to do whatever we can to maintain survival in its lowest point," Race said.

He sees no immediate letup to the recession, "not until late fall or next spring."

Many studies have been made and he has personally familiarized himself with them. "Recessions over the last 25 to 30 years have lasted 15 to 18 months — when you pretty well reach bottom — and it takes longer to get back up to

said. "Last August we were talking 'fight inflation' and in December we were down to seven or eight percent unemployment.

"One interesting point," he observed, "is that of all the top economists who went to the summit meeting last year, only

Pewaukee Parents Give Classroom Assurance

Pewaukee School Board Chairman Robert Kenzler Monday night told a delegation of parents who have children in special education classes,

"You can have confidence in the board that we will be doing something for you. There will be a program of instruction by September for children in kindergarten and above."

Kenzler made the commitment to parents at a board session opened by Assistant District Administrator Gene Edgette's comment, "We're very concerned about housing for our students with learning disabilities. We must think seriously now where these children are going to be housed in the fall." Edgette's view was given to the board since Pewaukee will have to house all of its special education children during the school year beginning next September.

the school does available room.

The board concurred Chairman Kenzler's several alternatives examined to make special education moving of the eighth areas in the high school including the fifth grade middle school and a vacated at the building for special 2. erection of barracks-type classrooms the elementary school renting of classrooms various locations of munity (Methodist mentioned) for kindergarten and moving special students into the

Hartland Planning Commission members voted April 7 to recommend to the Hartland Village Board that Universal Shelter, Inc., be allowed to begin Addition No. 2 this summer. Only planner Harry Bortel abstained as the group passed the plans on to the village board for action at its meeting next Monday night.

Pewaukee T Subdivision

Not Record

Planner Bortel became agitated over the numbers of apartments being planned in this phase. He was told by Planner Richard Landwehr that agreement was made as to the total number of apartments there in 1970 and "We can't change that now."

John Moesler, Universal Shelter president, told the planners, "We're just about out of lots now." So far, 169 lots have been developed, with 14 remaining to be sold. Of the 155 sold, 42 of them have duplexes on them. He said that this next addition would include 42 single family, 12 duplex and three multi-family lots.

66 UNITS

Moments after approval of beginning the second addition, the roof almost blew off the planning commission meeting room as a representative of builders Friz and Schultz proposed development of 66 one bedroom apartments in a building that would be situated on 4.51 acres of the proposed addition. This would be the easterly half of the total 10 acres dedicated for multi-family usage in this proposed phase.

The 66 units would have been

of garden type in a u-building with brick. Sixty-two of them would be allowed to begin Addition No. 2 this summer. Only planner Harry Bortel abstained as the group passed the plans on to the village board for action at its meeting next Monday night.

Developer Donald L. Spring West subdivision Pewaukee Town isn't even though there are 10 homes on it, the town learned Monday night. Mrs. Rudy Litschauer buy a lot there but can't certified survey property. A check of county register of deeds proved unsatisfactory. Litschauer told the board

"It's amazing a company would give under those circumstances wonder how they get without certified said Tn. Atty. Dale A

Sup. Emil Cirillo town plan and zoning committee and the board the certified surveys submitted by engineer Zimmerman of Ho Polzin-Becker & Associates Waukesha.

The longer a st holds up the record longer his lots stay on rolls, the clerk said.

Arenz advised the make an offer to purchase contingent upon a certified survey a board approval.

Waukesha, Wis. 53186

Dear Jerry,

The Hartland Village Board, along with the Finance Committee and the Village Clerk, would like to take this opportunity to thank you for your extremely dedicated service to the Village during the past several years.

Although we have used the services of Norman E. Schley's firm for many years, it has only been during the last several years that the Village has made tremendous strides forward in our accounting procedures. We're well aware that this is a direct result of your concern for our present and future needs. It was the suggestions you made that took us from our out-dated method of hand recording receipts and disbursements to the present sophisticated data processing program that we are now enjoying.

Even though we will miss the extra special service you've given to us, we do want to wish you well in your new position.

Best wishes,

Kenneth W.A. Race

COPIES TO: W. Austin
A. Rohrbaugh

FROM: R. Livingston

SUBJECT: Internal Audit Status

Now, at the end of the first week, I think it is appropriate to assess the start of Jerry Kroll's internal audit visit to Johnson Corporation.

The results of the week have been satisfying. Jerry's obvious technical qualifications, advance preparation and thorough, professional approach to the job have indicated to me that his visit will be a constructive opportunity to improve our systems and performance in Hourly Payroll and Labor Contract compliance. Jerry has discussed some preliminary findings with me, but by mutual agreement he will defer his final report and recommendations until he has completed all his work. However, the approach he is taking and his concept of internal auditing lead me to expect that the final report will be a useful, practical document that will offer positive suggestions to improve our compliance, efficiency, and control in the Payroll area. Due to the complexity of our Payroll systems and contracts, we estimate that it will require the full three weeks of this scheduled visit to complete the Payroll audit. Jerry will be returning to Columbus the weeks of December 12 and 19 to finish the job.

The most significant result of the first week has been the relationship established. We have discussed and come to agreement on the nature and function of internal audit as a beneficial tool for both the parent and subsidiary. I believe we have established an atmosphere of mutual respect and acceptance of each other's contribution to the common goal of efficiency and profitability of the Company. In support of this acceptance of common goals, we have achieved a good working relationship under which Jerry has our cooperation and support in his work, but also the independence which he needs and which benefits Johnson because he can do his work with minimal interruption of our ongoing operations. Open lines of communication with various levels of accounting personnel have been developed; in December, Jerry will be branching out to Data Processing and Personnel (as they affect Payroll) and I am confident that the same type of rapport will be developed with those areas. Continuation of this type of relationship through the remainder of the internal audit process, and its extension to the other operating units of Magic Chef, will firmly establish the internal audit function as an integral and vital part of management of the Company.

After the Payroll audit, I recommend that the next scheduled internal audit (probably in March, 1978) be devoted to the Purchasing and Accounts Payable areas. Because of the number of dollars, volume of transactions and the profound impact these areas have on the overall operation of the company, a good analysis of these systems at that time would be extremely valuable to us.

Subject: In reply to the Audit Report of June 15, 1978

In response to the Auditors Report, we found Mr. Jerome Krolls recommendations to be sound and applicable, we fully agree with his suggestions and have taken steps to implement them. We found Mr. Krolls expertise of great value in assisting us to set up accurate and timely warehouse procedures.

We acknowledge the fact that many errors have occurred, however; we feel that there were extenuating circumstances. We are of the opinion that many of the inventory errors that were uncovered by the Auditor existed prior to our assumption of the Magic Chef Office due to the failing health of a former Magic Chef employee. She was a diabetic and loss 80% of her eyesight. This condition existed for eight months prior to her termination.

Perhaps our taking over of Magic Chef's clerical activities could have been smoother; but dealing with an employee who has failing health called for a sympathetic response; thus, her work might have resulted in more errors than usually acceptable and an interruption of timely paperwork.

To rectify this situation we have hired one and one half girl with definite duties as stated in the auditors report. We are confident in the ability of both girls to follow the established warehouse procedures, so, we do not for see any problems in the future.

In our opinion this Magic Chef facility has outgrown the manuel inventory control system that is now being used, perhaps, a data processing system should be considered or one of the other two methods of updating our inventory control system that has been recommended by the auditor.

In conclusion we must mention that we consider our offices relationship with Magic Chef's customers of utmost importance and have and will continue to give this matter our highest priority.

Very Truly Yours,

Edward L. Chacon

Internal Auditor Report
G&S Returned Merchandise

November 9, 1978

Dear Al:

Thanks for your "short form" audit report concerning Jerry Kroll's recent audit. My initial comment is that you have come up with a dedicated and competent auditor in Jerry.

We intend to follow through on his suggestions. Bill Powell and Bob Cruz have been assigned this task. Some of his ideas were implemented before he left such as compiling a hood chart and improving routine instructions on the bills of lading.

One final thought--when Jerry reviews a problem as complicated as this, some of the ideas generated might be of benefit to Magic Chef and the rest of the organization.

MAGIC CHIEF

INTER-OFFICE CORRESPONDENCE

(DATE) February 8, 1979

TO : Al Rohrbaugh

REPLYING TO YOUR LETTER OF :

FROM : Fred Gant

SUBJECT :

I have had the opportunity to work with Jerry Kroll since January 18 on Anniston's finished goods inventory procedure and system. Obviously, we have had problems in this area and they have been a concern of mine for many, many months. These longtime concerns are what prompted my memo to you last July concerning a possible L.W.I. report for Anniston.

I have reviewed Jerry's reports and recommendations on a daily basis and have also reviewed the "short report" for the entire audit. Because of an untimely visit by an OSHA inspector, I was unable to give Jerry my comments on his recommendations J. and K. in time to be included in his short report. However, he now has them and I am sure that they will be included as an addendum to the short report or in the long report. I hope you have the opportunity to review the entire long report.

Because Jerry has had the initiative, time and patience required he has been able to determine several areas or items that need improving. I believe that most or all of these recommendations are very worthwhile. A review of my comments will show that most have already been implemented. With Jerry's help, I think that we have done about everything we can do for good control of finished goods.

However, to finish the job we need your help. We need a good L.W.I. or similar report in Anniston. We also have need of other D.P. systems improvements and reports. Some of the items we need are:

1. Faster turn around on the stock status report.
2. Faster turn around on the vendor release reports.
3. A fabricated parts "box report".

There are other systems and reports that we need in Anniston, but I won't go into them at this time because the main topic of this memo should be the audit on our finished goods inventory system. I will meet with you later at your convenience to discuss these ideas and requirements.

Having Jerry on board in Anniston has been a great help. He has been able to spend the time on a very important area and has done an excellent job. I am not saying this because he has given us a "clean bill of health" because you will see, after reviewing his report, that he has not done this. He pointed out the areas that needed

Memo to Al Rohrbaugh
February 8, 1979
Page 2

improvement without reservation. The internal audit function of Magic Chef is very important and we in Anniston are very grateful and appreciative of its existence, help and assistance. I look forward to working with Jerry in the future, especially on our purchased parts stock status report and system. I am sure he can make several excellent recommendations in this important area also. Again, thanks for the help and assistance.

TO WHOM IT MAY CONCERN:

I have known Jerome E. Kroll in a working and personal relationship since November of 1977. In our working relationship I have had opportunity to observe him in his work, and also to have been directly involved with him in some facets of his work.

On projects which he has worked either jointly with me or for my department, I have found him to be very thorough in his work. His research enables him to be thoroughly familiar with the situation at hand, and he utilizes this knowledge in exploring every possible avenue of approach to the matter to reach the most nearly perfect solution or recommendation.

Although he is thorough in detail, he always is open-minded and seeks input while working on his projects. His attitude is never one of "my way is the only way." He is receptive to suggestions, willing to listen to any ideas, and thoroughly discusses his reports, answering all questions directly and openly.

As an individual, he has high goals and ambitions and works diligently to achieve them. From all appearances he is very stable, mature, and of very high character.

DIRECTOR OF DINING SERVICES
832-1496

March 31, 1981

To Whome It May Concern:

This letter is to inform you that Jerome Kroll was employed by ARA Services, West Georgia College, from 10/13/80 until 3/25/81. He was employed as a General Utilities Worker. Mr. Kroll's work record is a good one along with his performance. Mr. Kroll's employment was terminated for his own personal reasons.

Bob Harshbarger, Comptroller

MEMO

TO: Jerry H. Watson, Chairman
FROM: Bob Harshbarger, Comptroller
SUBJECT: Request for Pay Increase - Jerry Kroll
DATE: December 19, 1983

Prior to Jerry Kroll's arrival in this department, we were looking at having to hire a part time person to help us get caught up with the workload. While the workload has continued to be heavy, Jerry has come in to this position and has not only caught it up, but has also pitched in and helped in other areas thus eliminating the need for another part time person.

In addition, when we were asking people to take time off without pay, Jerry took one day a week for several weeks and returned to his former place of employment to work that day at a higher wage.

Jerry is presently making \$4.37 per hour or \$9,089.60 annually. While he did agree to come to work at that wage, it has put a real burden on him to support himself.

Jerry has some college education and he enjoys his job. He is a very hard worker and wants to get established in the area of computers and accounting. I realize that this is not the normal procedure but I would like to request that Jerry be given a 5% increase effective December 13, 1983 (his 6 month probationary period ended then). I feel he has earned this and more and that we would be hard pressed to replace his position with the same caliber of person. We definitely would not find anyone at that price.

This was my idea to request an increase and not by Jerry's request although I know he could certainly use it. I would appreciate any consideration you could give to this request.

Mr. Jerome E. Kroll
P. O. Box 1254
Cartersville, Georgia 30120

Dear Mr. Kroll:

I am pleased to send you the enclosed note, indicating that the loan it covers has been paid in full.

Your cooperation in repaying this loan gives a strong boost to the financial aids program at Marquette University. The funds received by you will now be available to other students. Therefore, your conscientious efforts have helped to insure that the investment Marquette made in you can be repeated with other equally worthy students.

It is a source of satisfaction to us that we have been able to assist you, and we wish you every success in your chosen pursuit.

Cordially,

GRADES:

are based on quality and quantity of achievement of objectives of the course.

- A - Superior (93-100)
- B - Above Average (85-92)
- C - Average (77-84)
- D - Below Average (70-76)
- U - Unsatisfactory (Below 70)
- I - Incomplete
- N - No Rating
- W - Withdrawn
- S - Satisfactory Completion
- CR - Credit

A grade such as 1A means incomplete with a grade of A on the work completed.

COURSE VALUE:

A course value of 1 designates a course which is normally covered in 18 hours of instruction. A course value of 2 denotes one normally covered in 36 hours of instruction; 3 equals 54 hours, etc.

Dear Mr. Kroll:

Congratulations! You "made" the Honor Roll for the second semester of 1961-62.

This is an honor of which you may justly be proud as only 63 received this honor. You will also find that a record such as this will be of real help in finding a good position.

We wish for you continued success whether in additional education or at work.

Sincerely yours,

Calvin O. Evans
Dean of Students

MIT Honor Roll Recognizes 46

A review of individual students' semester grades reveals a record number who have attained outstanding scholastic achievement. The Honor Roll for the first semester shows that nine students earned straight A averages, an all-time high since the Honor Roll was established.

The scholastic accomplishments of these nine students, as well as of the other Honor Roll students, set a level of excellence and serve as a standard for all MIT students.

Straight "A" Averages

Berndt, Kenneth L. Structural Technology
Brown, Lyane Junior College
Fleming, William C. Restaurant & Hotel Cookery
Lange, Hildegard I. Medical Assistant
Murdock, Thomas E. Restaurant & Hotel Cookery
Schmid, Daniel H. Restaurant & Hotel Cookery

THE INSTITUTE OF INTERNAL AUDITORS, INC.
INTERNATIONAL HEADQUARTERS, 249 MAITLAND AVENUE,
ALTAMONTE SPRINGS, FLORIDA 32701, PHONE: 305/830-7600

July 25, 1978

Mr. Albert Rohrbaugh
Vice President
Magic Chef, Inc.
740 King Edward Avenue
Cleveland, TN 37311

Dear Mr. Rohrbaugh:

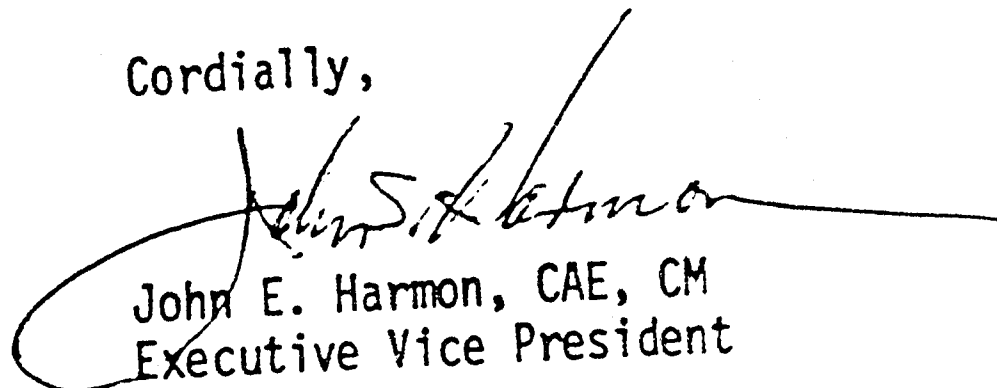

On behalf of The Institute and our 16,500 members, I would like to thank you for the excellent statement you made to the writer of the article in the July 18 issue of the Wall Street Journal.

It is particularly encouraging for the profession to have people of your stature speak out on the importance of the services rendered to management by internal auditors. Your statement, quoted in a highly respected publication such as the Wall Street Journal, will contribute immeasurably to the upgrading of the function of the internal audit position in the eyes of the general public and to the business world.

We noted in our records that one of your associates and your company's manager of internal audit, Jerome E. Kroll, is an active member of The Institute. We were also pleased to learn that Mr. Kroll sat for all four parts of the Certified Internal Auditor examination this year. We recognize that this type of participation requires the support of one's employer. I am sure that Mr. Kroll appreciates, as does The Institute, your company's leadership and support in this area.

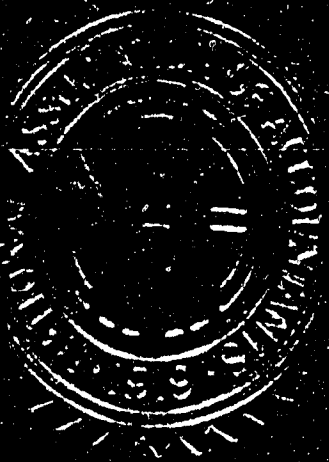

We wish you, your associates, and Magic Chef, Inc. continued success.

Cordially,

John E. Harmon, CAE, CM
Executive Vice President

BOARD OF VOCATIONAL AND ADULT EDUCATION

Fred M. Mason, President • Frank G. Collier, Vice-President • Philip H. Folk, Secretary • Russell E. Dresser • George Hall

Jerry, I think you should be a philosophy major. I don't think
you'll ever be really happy in accounting, and if you don't feel
you can live up to all your beliefs & ideals, then maybe theology
isn't for you, either. But you have a natural attitude for philosophy.
Get back into those humanities as fast as you can. Money doesn't
automatically bring happiness. The economic picture will brighten in
the next year or so. Probably even philosophy majors will get good
jobs.

Mr. Quinn 3-71

Climatrol Industries, Inc.

NEWSLETTER

September 4, 1969

Climatrol Headquarters had promoted Jerome (Jerry) Kroll to Procedure Analyst.

Jerry joined Climatrol as a cost accountant in January 1969. He was previously a cost accountant with Wisconsin Industrial Truck Company in Milwaukee.

He holds an Associate Degree in Accounting from the Milwaukee Technical College and is presently attending Marquette University.

In his new position he will be updating and revising Climatrol's Operating procedure manual.

Bob Rienzi

ACT THE AMERICAN COLLEGE TESTING PROGRAM - SRA PRESSCORE STANDARD SCORES						

WHAT ACT MEASURES

Five test scores are reported for the ACT examination.

English

Your score on this test indicates your ability to express your ideas correctly and appropriately in writing. Skills of diction, phraseology, punctuation, form and organization are essential to college work; you will find that success in many fields is strongly related to the ability to use the English language effectively.

Mathematics

Your score on this test indicates how well you have mastered arithmetic and mathematical principles and your ability to use this knowledge in the solution of quantitative problems.

Social Studies

Your score on this test indicates your ability to read, evaluate, and draw significant conclusions from social studies reading materials—for example, political science, history, and economics. Your score also indicates your general background information and understanding of basic social concepts.

Natural Sciences

Your score on this test indicates your ability to read, evaluate, and draw significant conclusions from natural science reading materials as well as your ability to evaluate experimental data, to appreciate the reasoning underlying experimentation, and to understand general scientific terms and principles.

Composite

Your Composite score is the mean (average) of these four test scores and provides an overall estimate of your general ability to succeed in college.

You have heard many times—but it always bears repeating—that there is nothing fixed, absolute, or final about a test score. The test score does indicate the general level of your educational development, but it may also in some degree indicate how well you felt the day of the examination, how nervous you may have been about the examination, or how hard you tried on the examination. Test scores from any examination lack perfect reliability; and it is important for you to look at your test scores along with your overall high school grade average, your grade averages in specific kinds of courses, and your college plans. Looking at just your test scores alone can often be misleading.

WHO GETS YOUR ACT SCORES

Copies of the scores that you see on your label were sent to your high school and to the three colleges you indicated when you registered for the ACT examination. Your high school counselor will use the scores to help you make a realistic college choice. The college admissions officer will use the scores as one factor in deciding how well you meet his school's academic standards.

HOW YOU CAN SEND ACT SCORES TO OTHER COLLEGES

If you should decide to apply to one or two other colleges, in addition to the three colleges you indicated on your ACT registration card, you can easily have your ACT scores sent to these additional schools.

MILITARY TEST REPORT

This is your report of a USAFI test which you recently completed. If you desire to have this record evaluated by a school or other agency, we will, at your request, forward an official test report to that agency in accordance with the test reporting policy stated in the USAFI Catalog. Related correspondence to USAFI should include your name, branch of service, service number, and date of testing. If rating is I (incomplete) or U (unsatisfactory), please review carefully USAFI retesting policies in the current edition of the USAFI Catalog. See reverse side for information that may be helpful in interpreting this test report.

ATTN EDUC SERVICES OFF
SHEPPARD AFB TEXAS

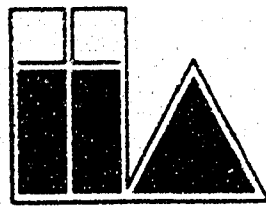

IMPORTANT: If your name or service number is in error, please make the correction and return this report to us immediately. Both are very important for locating your records in the future. A corrected report will be sent to you by return mail. Because of electric accounting machine space limitations, alphabetic letters preceding your Service number (RA, AF, etc.) and name suffixes (Jr., etc.) are not shown on USAFI test reports.

DIRECTOR

THE INSTITUTE OF INTERNAL AUDITORS, INC.
INTERNATIONAL HEADQUARTERS, 249 MAITLAND AVENUE,
ALTAMONTE SPRINGS, FLORIDA 32701, PHONE: 305/830-7600

August 24, 1978

Mr. Jerome E. Kroll
Magic Chef, Inc.
740 King Edward Avenue
Cleveland TN 37311

Dear Mr. Kroll:

This is to advise you of your scores on the 1978 Certified Internal Auditor Examination. A score of 75 was required for successful completion of each part. Your score for each part taken is shown below:

Candidate No. 4136	Part I	58	PRINCIPLES OF INTERNAL AUDIT
	Part II	61	INTERNAL AUDITING TECHNIQUES
	Part III	57	PRINCIPLES OF MANAGEMENT
	Part IV	53	DISCIPLINES RELATED TO INTERNAL AUDITING

These scores are held in strict confidence and will not be made known to any persons other than the Certification Department staff and the Board of Regents.

The grading was performed by a professional staff under the guidance and supervision of the Board of Regents. Due care was taken to ensure the accuracy of the scores, and marginal scores were independently reviewed by members of the Board of Regents.

I hope you will plan to sit for the examination again in 1979. The examination will be held on Thursday and Friday, May 10 and 11, 1979, and is tentatively planned for the same cities as 1978.

We sincerely regret that this endeavor was unsuccessful; however, we will be happy to assist you in any way possible toward your preparation for future examinations. All four parts must be passed within five years from the date you first took the examination. You may contact The Institute's office in Altamonte Springs, Florida, for any additional information required.

Sincerely,

R. E. Rivers
Certified Internal Auditor

Mr. Albert Rohrbaugh
Vice President
Magic Chef, Inc.
740 King Edward Avenue
Cleveland, TN 37311

Dear Mr. Rohrbaugh:

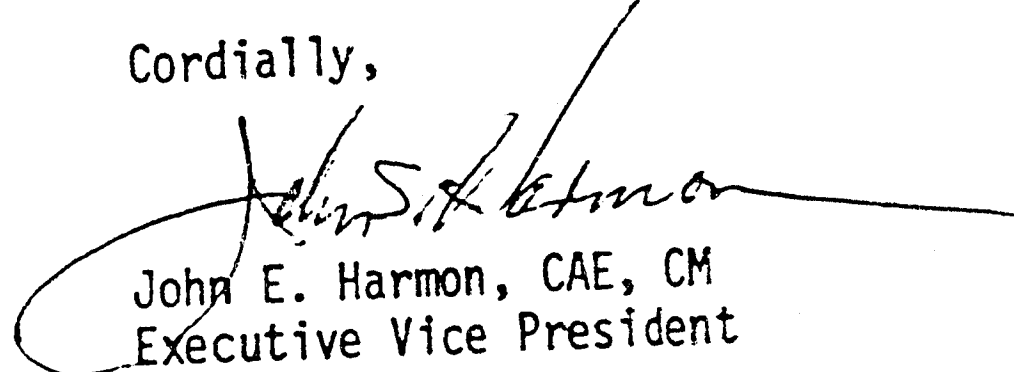

On behalf of The Institute and our 16,500 members, I would like to thank you for the excellent statement you made to the writer of the article in the July 18 issue of the Wall Street Journal.

It is particularly encouraging for the profession to have people of your stature speak out on the importance of the services rendered to management by internal auditors. Your statement, quoted in a highly respected publication such as the Wall Street Journal, will contribute immeasurably to the upgrading of the function of the internal audit position in the eyes of the general public and to the business world.

We noted in our records that one of your associates and your company's manager of internal audit, Jerome E. Kroll, is an active member of The Institute. We were also pleased to learn that Mr. Kroll sat for all four parts of the Certified Internal Auditor examination this year. We recognize that this type of participation requires the support of one's employer. I am sure that Mr. Kroll appreciates, as does The Institute, your company's leadership and support in this area.

We wish you, your associates, and Magic Chef, Inc. continued success.

Cordially,

John E. Harmon, CAE, CM
Executive Vice President
